Why Hyscent is today's choice

Dry Vapor

No liquids, no sprays, no mess!

Hyscent refill cartridges release pure fragrance and essential oil "dry vapor". No harmful chemicals or harsh solvents, just beautiful aromas of nature.

Environmentally friendly

No toxic ingredients

The absence of propellants and harmful solvents make Hyscent refills the health conscious and eco-friendly solution for your fragrancing needs.

Pet friendly

Perfect for family life

Our natural fragrances use essential oils formulated with Odoraxe™, which is scientifically designed and tested to effectively counteract unpleasant odors.

Smart refills

Industry leading fragrances

Advanced Polymer Absorption Technology (APAT) allows us to claim a 'life of cartridge' and 'consistent fragrance release' that leads the industry.

Smart scent delivery

Fragrance release is consistent throughout the life of our refills

As the fragrance level decreases, the fan spin time increases. This way we are making sure you get the most fragrance out of our refills. This way you smell the Hyscent refill all the time when in use!

Next generation technology

The Solo and Dual include new technology that maximizes efficiency and air flow dynamics. Our devices currently have the following:

- High quality Japanese Mabuchi Motor
- Smart power IC ensures consistent fan speed throughout the life of the batteries
- 3V power supply provides superior m/s air velocity
- High quality PCB ensures stability and optimal performance
- Specific pitched fan configuration ensures optimal air flow

High quality products and support

- We have a thorough quality control program and monitor our products and customer feedback so we continue to improve
- We have re-focused efforts on customer satisfaction and training to ensure you know how our devices work and how to get the most out of our fragrances
- Updated, on-trend marketing including beautiful printed materials, cutting edge video animation and a full Hyscent education at the click of a button. Our new website is where you will easily find everything you need whenever you need it.
